

# Supporting Integration of Spring Study Abroad Students in Departments

- Focus groups with study abroad students highlighted an issue with Spring Semester integration
- A need for smaller scale *student-led* welcome initiatives involving both home and international students
- Incentivise student societies and departments
- Set key criteria to ensure student events meet objectives

*"Before attending the study abroad social, I didn't know many students in the department - especially outside of my classes. Attending the event was a great way to meet other History students, learn more about the department and spend time with an awesome group of people I wouldn't have met otherwise".*

## Life After London

A new departure event for study abroad students to reflect on their time abroad and learn how to articulate their experiences in the job market.
