WIRL-COFUND Fellowships
The Institute of Advanced Study at the University of Warwick is pleased to announce that up to nine fellowships will be available in 2017 as part of the Warwick Interdisciplinary Research Leadership programme (WIRL-COFUND). The WIRL-COFUND fellowships are jointly funded by the University of Warwick and the European Union through the Marie Skłodowska Curie COFUND scheme. The fellowships will provide the opportunity for outstanding early career researchers from around the world to spend two years at Warwick in order develop their independent research and to train to become the next generation of research leaders.

These two-year fellowships will offer successful applicants the opportunity to accelerate their research careers by developing their own independent research ideas in a world-leading research environment whilst undertaking a specific programme of advanced training delivered through the IAS Academic Careers and Leadership Programme (AcCaLd).

The research undertaken should be linked to one of the eleven Global Research Priorities (GRPs) identified by The University of Warwick [http://www2.warwick.ac.uk/research/priorities](http://www2.warwick.ac.uk/research/priorities)

Who can apply?
The programme is aimed at postdoctoral researchers at an early stage in their research career who would benefit from the opportunity to develop an independent research profile and receive training through the AcCaLd programme, in order to establish themselves as future research leaders.

In line with the ethos of the IAS, fellowships are open to applicants of any discipline who are able to demonstrate the ability to apply or extend their knowledge beyond disciplinary specialisms and propose a comprehensive and innovative research project that aligns with at least one of Warwick’s cross-faculty Global Research Priorities.

The fellowship applicant must demonstrate transnational mobility and, on the 8th May 2017, must not have resided or carried out his/her main activity (work/study etc.) in the UK for more than 12 months in the three years prior that date. Compulsory national service and/or short stays such as holidays are not taken into account.
How to apply

- All applications must be submitted via the University of Warwick Job Search System. Applications submitted by any other means will not be accepted. For further information on this system and how to use it please see the Guidance for Applicants available at http://www2.warwick.ac.uk/fac/cross_fac/ias/wirl/

- The deadline for submissions to this call is 16th December 2016. No applications will be accepted after this date. Applications will be peer-reviewed through early 2017 and interviews will take place in the week of 2nd May 2017.

- Fellowships will start in September 2017

Further Information
For further information and guidance for applicants please see the WIRL-COFUND website http://www2.warwick.ac.uk/fac/cross_fac/ias/wirl/

Enquiries regarding the WIRL-COFUND fellowships can be sent to WIRL.COFUND@Warwick.ac.uk

Application Deadline
All applications must be received by 16th December 2016

Apply online using the University of Warwick Job Search System which can be found at http://www2.warwick.ac.uk/services/humanresources/vacancies

About the IAS
The IAS works across all faculties and departments and hosts a vibrant community of early career and international visiting fellows to create a dynamic interdisciplinary environment. Fellows will be based in the IAS and will also have a host academic department where they will be supported to conduct their research. http://www2.warwick.ac.uk/fac/cross_fac/ias

Global Research Priorities
The University of Warwick has identified eleven Global Research Priorities (GRPs) to address some of the most challenging problems facing the world today. They provide a platform for multidisciplinary research in 11 key areas of international significance. The GRP programme supports cross-departmental collaboration, enabling our researchers to work together across departmental and disciplinary boundaries on issues of global importance. WIRL-COFUND fellows will be expected to undertake research shows a strong link to one or more of the GRPs. http://www2.warwick.ac.uk/research/priorities

About Warwick
The University of Warwick is one of the leading universities in the UK and was ranked 7th in the UK in the recent Research Excellence Framework and 51st in the world in the latest QS World University Rankings 2017.
