NHS National Strategy and the STP

NHS National Strategy (2014)
- Why the NHS needs to change
- Focus on triple aim of improving health; reducing the care and quality gap; addressing financial sustainability of care
- A new relationship with patients and communities
  - Getting serious about preventing ill health
  - New models of care
    - Care deliver
    - Working more closely with local authorities
  - Context for securing investment

Public Health England have led on improving Prevention

National taskforces established to set out priorities for
Urgent and Emergency Care
Mental Health
Cancer
Transforming care for those with LD
Maternity services

*Sustainability and Transformation Planning (STP) is a route map for how we plan to deliver the national strategy at a local (Coventry and Warwickshire) level*
Main Questions to be addressed in the plan

<table>

<tr>
<th>Health &amp; Wellbeing</th>
<th>Care &amp; Quality</th>
<th>Finance &amp; Efficiency</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>How will you close the health and wellbeing gap?</strong></td>
<td><strong>How will you drive transformation to close the care and quality gap?</strong></td>
<td><strong>How will you close the finance and efficiency gap?</strong></td>

<tr>
<td>Plans for a ‘radical upgrade’ in prevention, patient activation, choice and control, and community engagement.</td>
<td>Plans for new care model development, improving against clinical priorities, and rollout of digital healthcare.</td>
<td>How we will achieve financial balance across our local health system and improve the efficiency of NHS/Social services.</td>
</tr>
</tbody>
</table>
Going forward our focus is on making sure safe and sustainable services are delivered to our citizens in ways that support the STP vision...

To work together to deliver high quality care which supports our communities to live well, stay independent and enjoy life.
