Director's Message

Our strategic alliance between the University of Warwick and the Royal College of Nursing (RCN) has continued to strengthen during the sixth year of our partnership. We have worked hard with the RCN to ensure we help the RCN deliver its strategic objectives.

We have had some major changes over the past year. In February 2013 we became part of Warwick Medical School and moved to the Medical School site in April 2013. We would like to thank all of our colleagues from our previous home, the School of Health and Social Studies, for their collegiality during the productive five years we spent with them. The School of Health and Social Studies has now been disestablished, with most of those doing health related research moving to Warwick Medical School. We have been made to feel welcome by colleagues at the Medical School, and were already collaborating with many of them, so the move has strengthened these collaborations and facilitated new ones.

We have been very productive over the past year; both with papers published and grant income, as our annual report shows. Our working environment is very important to all of us in the RCN Research Institute. We continue to aim to demonstrate collegiality, integrity, fairness and respect within a supportive and challenging environment.

We value a collaborative inclusive approach to our research. We have been working with a range of national and international experts including academics, health care professionals and users of services as together we can deliver on a dynamic and exciting research agenda.

Thank-you to everyone in the RCN Research Institute for their dependability, passion for excellence, and for their support. I always know you will work hard to meet the challenges our work presents, and will do so with good grace.

I would also like to thank everyone who has supported and challenged us throughout the year. Janet Davies, Director of Nursing and Service Delivery and Steve Jamieson, Head of Nursing, at the RCN, and Professor Martin Underwood & Professor Aileen Clarke at the University of Warwick deserve special mention as their support and challenge has helped us develop. Our Joint Advisory Board members have been generous with their time and asked questions that have made us think, and this has helped us refine and extend our research, and kept us on track. Some of our Joint Advisory Board members will complete their term on our Board at our November 2013 meeting, so a special thank-you to them for their really constructive contributions.

We look forward to 2013-14 and all it will bring. We will be keeping our qualities of academic rigour, professionalism, collaboration and resilience firmly at the front of our minds as we meet these challenges.

Kate Seers

Professor Kate Seers

Director, RCN Research Institute

October 2013

Summary of Progress

Ongoing Research

RCN RI research is organised around three themes; patient & public involvement and patient & nurse experiences; patient reported outcomes; and translating knowledge into practice. Our website has more details: <http://www2.warwick.ac.uk/fac/med/research/hscience/rcn/research> All ongoing research is within budget and agreed timeframes. All annual or final reports submitted as required by funders are either under review or have been accepted.

Publications

The Research Excellence Framework has been a focus over the past year and staff have been productive, with 29 papers published in 2012-2013. Our work is also highly cited, with levels of career citations being described as good, very good or excellent for 62 of our publications and of those citation rates for six are described as “exceptional”.¹

Grants

We have been successful in generating grant income, with ten externally funded grants running during the period of this report. We continue to work collaboratively on grant applications nationally and internationally, and health professionals and users of services are important collaborators on these grants.

Measures of Esteem

Members of the RCN RI have a variety of measures of external esteem, including membership of a Research Excellence Framework panel, editorial board membership, invited plenary lectures, invited national and international scientific committees, contribution to national policy initiatives and contribution to the academic community via external examining, especially at PhD level.

PhD Students

It has been an exciting year with many interesting studies underway. The PhD students who had started with us in the School of Health and Social Studies continue under those regulations. All new PhD students starting with us are now registered under Warwick Medical School regulations.

Strategic Alliance

The strategic alliance between the RCN and the University of Warwick is developing really well. We are delighted to be able to continue this relationship, and the progress of the strategic alliance is reviewed by our Joint Advisory Board.

Newsletter

Our newsletter continues to be published quarterly. It provides key messages from our activity and is disseminated widely as well as being on our website.

Other developments

Our research strategy is continually updated, in collaboration with all members of the RCN RI. We will continue to work towards more programmatic funding rather than individual grants to increase the sustainability of the unit. We have a range of strategic collaborations both nationally and internationally.

¹ Hack TF, Crooks D, Plohman J & Kepron E. (2010) Research citation analysis of nursing academics in Canada: identifying success indicators. *Journal of Advanced Nursing* 66(11):2542-2549.

Contribution of RCN RI to the University

Up until February 2013 RCN RI staff attended the Graduate Research Committee and the school meeting in the School of Health and Social Studies (SHSS). Professor Seers was part of the School of Health and Social Studies (SHSS) executive team, Director of Research for SHSS and was Professor Responsible for the department from April 2012. She also attended faculty research directors' meetings and was part of a Research Excellence Framework working group. In addition she was appointed investigating officer in SHSS for a university issue. Professor Seers and Dr Hayward were part of the Faculty of Social Sciences Board. Dr Staniszewska was Director of Graduate Studies (continuing students) for SHSS, chaired the Graduate Research Committee and was Research Staff Member of the Staff-Student Liaison Committee. She remains Member of the Advisory Group for Global Prioritise Programme (Health and Technology) and was Departmental Representative for ESRC Doctoral Training Centre Board. Dr Mockford was a representative on the Research Staff Forum for SHSS and Deputy Representative for the Forum on the University's Research Committee. Ms Kennedy was the School's First Aider and Mr Kent was the school's Fire Marshal. The RCN RI staff also contributed as members of MPhil to PhD upgrade panels, PhD exam advisors and internal examiners at Masters and PhD level. They also organised and contributed to research surgeries, journal clubs and Research and Development seminars. From February 2013 Dr Staniszewska has been a member of the WMS Research Strategy Group. Professor Seers has been a member of the Warwick Medical School (WMS) Divisional Strategy Group and is also a mentor for the University's Coaching and Mentoring Scheme, a mediator, and has been appointed as investigating officer for a University matter.

Contribution of the University to the RCN RI

RCN RI staff access an extensive programme of training and development within the University. They have successfully applied for internal research development funding, and Institute of Advanced Studies monies to pump prime research collaborations with international academics. There are also many opportunities for collaboration with colleagues from a variety of departments, and a range of seminars to attend.

Contribution of RCN RI to Royal College of Nursing

Staff have helped develop the strategic alliance with the RCN, contributing to building an authoritative body of knowledge relevant to nursing. We work closely with RCN staff and members on a number of issues relevant to the RCN. We have worked closely with the RCN on patient and public involvement and a range of research related issues. The amount of team work has increased significantly with more integrated ways of working, contributing to the work of the RCN.

Leadership

Strong strategic leadership underpins the effectiveness and culture of the RCN RI. We endeavour to model valuing and respect of all staff as we believe this is essential for a team to function well and to enable staff to develop to their full potential. Several staff have undertaken leadership programmes, to ensure effective leadership at all levels. Ensuring appropriate staff development is seen as a crucial contribution towards stability and succession planning. Professor Seers was awarded a DSc from the University of Warwick in July 2013. This is a higher award for a sustained and substantial contribute to scientific knowledge.

Conclusion

The RCN RI remains at the forefront of knowledge generation. It has continued to thrive at the University of Warwick. We continue to develop research capacity relevant to nursing, including through supervising PhD students. Healthy grant income, high quality publications, and a good working relationship with the RCN have enhanced the strategic alliance.

Current Research Grants - August 2012-July 2013

Funder/Title	NIHR Collaborations for Leadership in Applied Health Research & Care (CLAHRCs). CLAHRCs are collaborative partnerships between a university and the surrounding NHS organisations, focused on improving patient outcomes through the conduct and application of applied health research.
PI	Lilford & Currie
Amount	£10M
Co-Investigators	Large team, at Warwick Medical School (WMS) lead by Clarke & at Warwick Business School (WBS) by Currie. Seers, Staniszewska
Dates	January 2014 for 5 years

Funder/Title	NIHR HTA - Facet Feasibility Study: Facet-joint injections for people with persistent non-specific low back pain
PI	Underwood (WMS)
Amount	£447K
Co-Investigators	Large Team, Kirstie Haywood co-applicant (total 11 co-applicants)
Dates	July 2013-October 2015

Funder/Title	NIHR HS&RD - Absorptive Capacity - Improving the Absorptive Capacity (ACAP) of Commissioning Networks for Critical Review of Evidence to Reduce Unplanned Elderly Care Admissions into Acute Hospitals
PI	Currie (WBS)
Amount	£500K
Co-Investigators	Sophie Staniszewska
Dates	June 2013-May 2016

Funder/Title	The use of PROMs in clinical practice: Patients and health professionals' perspectives - A systematic review of qualitative studies. <i>NIHR funding: Part of a larger project: Valderas JM, Improving the management of long term conditions with the clinical use of Patient Reported Outcome Measures (PROMS) in Primary Care</i>
PI	Valderas (Oxford)
Amount	£996K
Co-Investigators	Kirstie Haywood, Gonçalves, Ricci-Cabello, Atherton
Dates	September 2012 (12 months)

Funder/Title	WHITE study - NIHR Programme Development Grant - Improving outcomes for patients with fracture of the proximal femur
PI	Costa (WMS)
Amount	£99K
Co-Investigators	Kirstie Haywood (total 13 co-applicants) Griffin, Griffiths, Parsons, Achten, Petrou, Fitzpatrick, Boardman.
Dates	January 2012 (12 months)

Funder/Title	Chartered Society of Physiotherapy Research Foundation - Recommendations for exercise adherence measures: Findings from a systematic review and consensus workshop
PI	Sionnadh Mclean (Sheffield)
Amount	£75K
Co-Investigators	Kirstie Haywood (co-applicant)
Dates	April 2013-May 2014

Funder/Title	NHS Service Delivery and Organisation. ECLIPS: Evaluating CLAHRCs Impacts and Process
PI	Rycroft-Malone (Bangor)
Amount	£592K
Co-Investigators	Staniszewska, McCormack, Dopson and Thompson
Dates	January 2010 for 54 months

Funder/Title	European Commission FP7. Facilitating the Implementation of Research Evidence (FIRE)
PI	Seers
Amount	€3M
Co-Investigators	Harvey, Rycroft-Malone, McCormack, Titchen, Cox, Wallin, McCarthy
Dates	January 2009 for 48 months (6 month extension to June 2013)

Funder/Title	NIHR/INVOLVE - RAPPORT Study: Public involvement in research: a realist evaluation of approaches, processes and outcomes
PI	Wilson (Herts)
Amount	£306K
Co-Investigators	Kendall, Goodman, Cowe, Munday (Herts) Peckham (LSHTM) Howe, Poland (Norwich) Staniszewska (Warwick)
Dates	September 2011 for 30 months

Funder/Title	NIHR Funded - New models of patient experience
PI	Graham (Picker)
Amount	£499K
Co-Investigators	Fitzpatrick, Cornwell, Coulter, Jenkinson and Staniszewska
Dates	February 2012-February 2014

Funder/Title	Royal National Hospital for the Rheumatic Diseases - Donated Research Funds. Patient Reported Outcome Measures for Paediatric CFS/ME: a qualitative study
PI	Kirstie Haywood and Crawley (Bristol)
Amount	£6K
Co-Investigators	
Dates	May-July 2012

Funder/Title	NIHR HTA - Wound management in lower limb injury (WOLLF) - A RCT of standard-of-care wound management versus negative pressure wound therapy in the treatment of adult patients with open fracture of the lower limb
PI	Costa (WMS)
Amount	£2.4M
Co-Investigators	Acten, Lamb, Willett, Stavros, Gates, Griffin, Tutton (<i>qualitative element of feasibility study 0.2 FTE</i>)
Dates	July 2012 for 5 years

Funder/Title	Economic and Social Research Council Seminar Series - Nursing and Social Science - To consider what social science perspectives can contribute to nurse education. (<i>Warwick Seminar on "The Importance of Culture to Nursing" - July 15th 2014</i>)
PI	Atherton (Sheffield)
Amount	£20K
Co-Investigators	Seers, Roberts, Haw, Timmons
Dates	January 2014-July 2016

Funder/Title	NIHR Research for Patient Benefit - Carer and patient-led development of recommendations for people with dementia returning home from hospital: understanding what is important
PI	Mockford
Amount	£241K
Co-Investigators	Seers, Staniszewska, Oyebode, Suleman, Clarke, Pickett (replaced by Murray)
Dates	January 2014 for 24 months

Funder/Title	DH Policy - Infectious Disease Dynamic Modelling in Health Protection (Life Sciences and Mathematics)
PI	Matt Keeling
Amount	£1.2M
Co-Investigators	Sophie Staniszewska
Dates	June 2013 for 60 months

Funder/Title	RCN - Ward Sister Supervisory Study
PI	Seers
Amount	£9.5K
Co-Investigators	Watterson and Currie (RCN)
Dates	November 2013 for 18 months

RCNRI Staff - Conferences Attended and Papers 1 August 2012 - 31 July 2013

Date	Conference Title	Attendees
Sep 2012	<p>Patient Experiences: Quality Standard and Beyond Conference, London</p> <p><i>Invited Conference Chair and Keynote Speaker: Implementing the NICE Guidance on Patient Experiences</i></p>	Sophie Staniszewska
Oct 2012	<p>International Society for Quality of Life Research (ISOQoL), Budapest</p> <p><i>Workshop: Do Patient Reported Outcome Guidelines for Routine Clinical Practice Matter? Government, industry and patient perspectives (Quality of Life in Clinical Practice Special Interest Group)</i></p>	Kirstie Haywood

RCN RI Research & Development Seminars 2012/2013

R&D Seminars		Journal Club
Date	Title	
4 Oct 12	Top Tips on Leadership - Lessons from Ashridge and Windsor Leadership Trust (Prof Kate Seers)	Barber, R; Boote, JD; Parry, GD; Cooper, CL; Yeeles, P and Cook, S (2010) Can the impact of public involvement on research be evaluated? A mixed methods study, <i>Health Expectations</i> , 15: 229-241
8 Nov 12	EQUATOR - Enhancing Quality and Transparency of Health Research (Iveta Simera, Head of programme Development, EQUATOR Network)	Collaborative Communication - the experiences of collaboration on a EU (FP7) Research Project (Deirdre Kennedy, Project Manager, FIRE Project, RCN RI)
6 Dec 12	Meta-ethnography of chronic non-malignant pain: findings and conceptual map (Prof Kate Seers)	Williamson, PR; Altman, DG; Blazeby, JM; Clarke, M; Devane, D; Gargon, E and Tugwell, P (2012) Developing core outcome sets for clinical trials: issues to consider, <i>Trials</i> 13:132
7 Feb 13	NIHR Horizon Scanning Centre - Informing Research and Health Service Guidance (Dr Sue Simpson, Associate Director, NIHR NSC, University of Birmingham)	Ham, C (2013) Developing integrated care in the NHS: adapting lessons from Kaiser; <i>Health services Management Centre, School of Public Policy, University of Birmingham</i>
7 Mar 13	Using Weiss Framework to look at the history of evidence and policy on Patient and Public Involvement in research (Prof David Evans, University of the West of England)	Sandelowski, M and Leeman, J (2012) Writing Usable Qualitative Health Research Findings, <i>Qualitative Health Research</i> 22(10) 1404-1413
2 May 13	Using the capabilities approach to research mental health adult community learning (Dr Lydia Lewis, University of Wolverhampton)	Salmela, S; Eriksson, K and Fagerström, L (2013) Nurse Leaders' Perceptions of an Approaching Organizational Change, <i>Qualitative Health Research</i> , 23(5) 689-699
6 Jun 13	An exploration of the contribution of nurses' and care assistants' to patients' mobility rehabilitation' - a grounded theory study (Dr Rosie Kneafsey, Senior Lecturer in Adult Nursing, Coventry University)	The functioning of social systems as a defence against anxiety - a report on a study of the nursing service of a general hospital, Isabel Menzies Lyth, 1959

Peer Esteem 2012/2013

Jo Brett

- ESRC studentship funding for her PhD
- Member of Interpretative Phenomenology Analysis Group, Oxford (sub group of British Psychological Society Yahoo Group)

Kirstie Haywood

- Associate Editor Quality of Life Research (starts September 2012)
- Editorial Board Musculoskeletal Care from 2002-date
- Invited panel member Department of Health funded Policy Research Unit in Quality and Outcomes of Patient Centred Care (QORU) seminar April 2012

- HABC Level 3 Award in Health and Safety in the Workplace
- HABC Fire/Manual handling Seminar
- Division of Health Sciences Administrative Staff Awayday - July 2013

Claire New

- Division of Health Sciences Administrative Staff Awayday - July 2013

CONSTITUTION

Joint Advisory Board **Royal College of Nursing Research Institute (RCN RI)** **Warwick Medical School** **University of Warwick**

The Royal College of Nursing Research Institute (RCN RI)

The RCN RI was formerly the Research Team at the Royal College of Nursing Institute from 1996-2007. When the RCN wished to develop a strategic alliance with another Higher Education Institute to enhance its ability to deliver high quality research, the University of Warwick was successful in its bid to be the RCN's strategic alliance partner for research. The RCN RI has been a Research Centre at the University of Warwick since 1st August 2007, moving to be based within Warwick Medical School on 1 February 2013.

Aims of the RCN Research Institute

The RCN RI is committed to staying at the leading edge of research in our specialist areas via national and international inter-disciplinary collaboration. Specifically we aim to:

1. Produce high quality research that improves patient care and impacts on policy.
2. Increase research capacity within nursing by providing high quality research training.
3. Contribute towards the RCN delivering on its strategic objectives.

Constitution of the RCN RI Joint Advisory Board

1. To advise the University, the Royal College of Nursing and the Director RCN RI on strategic planning and direction.
2. To advise on the academic plans of the RCN RI, including scope and range.
3. To review objectives and progress against objectives.
4. To monitor the strategic alliance agreement between University of Warwick and the Royal College of Nursing, and discuss and recommend any variations and developments.
5. To ensure sound financial governance of RCN RI by receiving and commenting on financial statements.
6. To receive and review an Annual Report.
7. To monitor the quality of PhD student experience.

Membership of Joint Advisory Board

1. Two members from University of Warwick.
2. Two staff members from the Royal College of Nursing.
3. Two members of the Royal College of Nursing, to be appointed by the RCN Nursing Practice and Policy Committee.
4. Two external members with expertise in directing research centres
5. Two user/patient members.
6. Two members working in health care.
7. Director of RCN RI.
8. Head of the Health Sciences Division or nominee.
9. One staff member from RCN RI.

Additional members can be co-opted to provide specialist advice as agreed upon by the University, the RCN and the RCN RI.

The Joint Advisory Board will be supported administratively by the PA to the Director RCN RI.

Working Methods

1. The Joint Advisory Board will meet at least annually.
2. All matters relating to the Joint Advisory Board will be treated as confidential.
3. Electronic or written communication may be used between Joint Advisory Board meetings.
4. All members will have equal standing on the group.
5. Term of office for members other than of the University or RCN is three years, renewable for one additional three year period.
6. The Joint Advisory Board will be chaired by an external member.
7. Conflicts of Interest will be declared and recorded.
8. A minimum of five members, which must include one member of the University and one staff member of the RCN, must be present for a meeting to be quorate. Decisions relating to the approval of the Work Programme and Annual Report can only be made if a representative from both the RCN and the University vote in favour
9. If a Joint Advisory Board member is not present at three consecutive meetings, a new Joint Advisory Board member may be considered by the Chair and the Director of the RCN RI. It is expected that the member will normally attend, but they can send a fully briefed representative where this is unavoidable.
10. The experience and involvement of users and the impact of that involvement will be monitored.
