PhD Studentship

Dr Manuela Tosin

**PhD project:** Chemical biology tools for the generation of unnatural products

**Supervisors:** Dr Manuela Tosin

**Deadline:** 31st January 2017

**Funding availability:** UK/EU (Funded)

**Project description:**
A PhD studentship is available from October 2017 in the group led by Dr Manuela Tosin. The project will involve the synthesis of small molecules that can be utilised by engineered microorganisms for the rapid generation of natural product analogues.

For a representative publication on our work please see:

For further details on our group, please see the Tosin group website:
http://www2.warwick.ac.uk/fac/sci/chemistry/research/tosin

**Requirements:**
Applicants should have (or be about to receive) an honors degree (at least II.1 or equivalent and a Masters degree is preferred) in chemistry, or other relevant discipline, and should have experience with organic synthesis and organic compounds characterization. This studentship only provides funding for UK/EU students and funding is provided for 3.5 years.

**How to apply:**
Enquiries and informal applications should include a C.V. and be made as soon as possible to Dr Manuela Tosin (m.tosin@warwick.ac.uk).

Details on how to apply formally can be found at http://www.go.warwick.ac.uk/pgapply
