The Department of Chemistry  
The University of Warwick  
PhD and MSc | Places Academic year 2016/17

http://www2.warwick.ac.uk/fac/sci/chemistry/gstudy/

The Department of Chemistry at the University of Warwick, UK expects to appoint around 60 funded and self-funded PhD and MSc students in the academic year 2016/17 in the following areas:

- Analytical Science and Instrumentation (MSc taught course also available)
- Chemical Biology
- Interfaces and Materials
- Polymer Science (MSc taught course also available)
- Synthesis and Catalysis
- Theory and Simulation

For PhD study, you will have the equivalent of a UK 2.1 degree or higher in Chemistry or a related Science. Significant research or industrial experience or strong postgraduate qualifications will also be taken into account. http://www2.warwick.ac.uk/fac/sci/chemistry/gstudy/

For taught MSc study in Analytical Science or Polymer Chemistry, you will have the equivalent of a UK 2.2 Degree or higher in Chemistry, or an appropriate related subject.
