The Postgraduate Combinatorial Conference is aimed at research students in all areas of combinatorics, discrete mathematics who are currently working on their PhD. The conference is organised under the auspices of the [British Combinatorial Committee](#) and the [Centre for Discrete Mathematics and its Applications \(DIMAP\)](#). Our sponsors include the [London Mathematical Society](#) and the [Open University](#). Most talks are contributed by the students themselves, apart from talks by invited speakers. The invited speakers will include:

**I. Stewart** (Warwick)

**I. Leader** (Cambridge)

**O. Hudry** (École Nationale Supérieure des Télécommunications)

Students are encouraged to give a short talk about their research. Topics include for example graph theory, design theory, coding theory, cryptography, partial orders, extremal set theory, theoretical computer science and model theory. The organisers of PCC2008 are Haris Aziz (local organizer), Manuela Heuer, Emil Vaughan, and Simon Griffiths.

*Registration deadline: 20 May 2008*

*Registration & Accommodation Cost: £110 (if you apply early enough)*
