A Day in Analysis and Geometry

University of Warwick, Friday 27th September, 2013

This is a half-day event sponsored by the London Mathematical Society to celebrate the appointment of a new Professor at the Mathematics Department of Warwick University (Andrea Malchiodi).

There will be three talks focused on Analysis and Geometry: Michael Singer (University College, London), John Toland (Newton Institute, Cambridge) and Andrea Malchiodi (University of Warwick). The event will be followed by a reception and dinner.

If you are interested in attending this event or would like further information, please send an email to Andrea Malchiodi (A.Malchiodi@warwick.ac.uk). For organisational purposes, it will be helpful if you could confirm your participation.

The talks will take place in Room TBA in the Mathematics Department at the University of Warwick (directions can be found here).

A (very) small amount of funding to support travel (by rail) for graduate students and young researchers might be available.
