

# Philanthropy at Warwick

Congratulations to all the students who have been awarded one of our Giving to Warwick Student Prizes this year!

We are delighted to recognise the academic achievements of these students this evening.

As you may know, the University of Warwick is a charity and has an incredible community of supporters who join together to achieve amazing things on campus and beyond, including funding scholarships, medical research, new buildings, outreach projects and lots more.

The Giving to Warwick Prizes are another example of how donations are making a difference. These prestigious awards have been established in every department and are only available thanks to generous donations from alumni and friends.
