Start.Warwick portal

What is Start.Warwick?

Start.Warwick is a service provided by the IT Services Web Team to enable you to create your own home page. It’s somewhere you can store all the handy information and links you need in a format that you want.

Start.Warwick is a container (or ‘portal’) into which you can put all the applications (or ‘gadgets’) you need to make your life easier. The gadgets are displayed in small windows on the web page.

Sign in to see a page that is personalised for you.
Add, remove and re-arrange your gadgets on the page as you like.
Customise your gadgets by clicking on their settings button.

How do I add a gadget?

Sign into Start.Warwick on the following page: https://start.warwick.ac.uk/

Items can be added to Start.Warwick using the Add a gadget option; ensure you are signed in and are in the tab where you want to place the new gadget. You can divide gadgets between tabs on your screen and add further tabs if you wish by clicking on the cross to the right of the tabs already listed there.

Select a gadget and you will be presented with a list of gadgets. Highlight the gadget you want to add and select Add a gadget. Click and expand the lists to the left of the screen and you will find more gadgets.

How do I add My Warwick Admin Systems?

Click Add a Gadget and look for My Warwick Admin Systems then click Add this gadget.

This will give you access to:
- Student records
- Module registration
- and various other links.

How do I edit a gadget’s properties?

Each gadget will have its own edit, minimise or remove option.

To edit the properties of a gadget, select the edit option on the gadget and make your changes, click Save.

You can also move a gadget to a different tab using the following:
Left click and hold the title bar of the gadget you want to move. The mouse pointer will change into a cross with arrows pointing in four directions. Drag the gadget over the title of the tab you want to move it to. Release the mouse button.

Add a third party gadget – Open social API

Start.Warwick can display third party gadgets such as those that are used with iGoogle personalised pages. As long as a gadget supports Open Social API Application Program Interface it should work on your Start.Warwick page.

From the Add a Gadget dialogue box select Add a gadget not in the directory, you will be presented with Add a gadget by URL box, enter the URL and click Add. Because Start.Warwick is built as a container for OpenSocial gadgets it already works with a huge variety of non-university gadgets. Start.Warwick, gadgets made for Start.Warwick will also work with iGoogle.

How do I add my Warwick email account and printer credit link?

If Warwick email is not visible on your home tab you can add Warwick email inbox from Add a Gadget.

You will find the Printer credit link listed in the My Warwick Admin gadget but it can also be added as an individual gadget under Add a Gadget.
