FOCUS ON: MEDIATION AND COACHING & MENTORING

Mediation

Staff
Where appropriate the University uses mediation as an effective mechanism to resolve issues informally, expeditiously and successfully.

The University has an internal mediation team of both academic and professional staff, which is led by Sandy Sparks from LDC.

Within the HR webpages you can find further information on the mediation process, including:

⇒ Mediation FAQs
⇒ Agreement to attend mediation form
⇒ Mediation settlement agreement template

For further information contact your HR Adviser.

Students
As a member of Research Active Staff you will be working with students on a day-to-day basis. It is therefore important that you are aware of the mediation procedure from a student perspective. The University has a clear 3-stage Student Complaints Resolution Pathway for informal and formal complaints.

Further information about the Pathway, including the rules and required timescales, are set out in the Students Complaints Resolution Procedure. You will see from the relevant webpage that Section 9 is dedicated to Mediation. If you or any of your students have any queries about this you can contact the Central Student Complaints Resolution Team by emailing: studentcomplaints@warwick.ac.uk

You can visit the ‘Feedback & Complaints’ webpage by clicking here.

Coaching and Mentoring support at Warwick

Coaching and mentoring are potentially valuable processes to help someone to enhance their performance, improve working relationships, develop their capability or manage their career.

An effective coach or mentor (depending on the context of the support required) can create a relationship which enables the other to discuss the important issues that matter to them at work.

The Learning and Development Centre at Warwick provides a range of support for those wishing to get involved, with two key areas highlighted below.

Warwick’s Coaching and Mentoring Scheme aims to create partnerships outside the normal line management relationship, where one person helps another to enhance their performance, learning or development and is available to academic and professional service staff, with a specific scheme run to support staff in WMS.

Further details on the scheme, including the application form to either request or offer support, can be found by clicking here.

Coaching & Mentoring Blended Learning

With increasing interest and demand for this area of support, LDC has created flexible, blended learning support activities, launched to the university in January 2017. Coaching or Mentoring: an Introduction, is a Moodle that offers a range of information to support understanding of coaching or mentoring relationships.

It includes an Online Introduction Course which takes you through the definitions, techniques and models used in coaching and mentoring. The online course takes approximately 45 minutes to work through and is designed to be completed in conjunction with a follow-up 2 hour workshop, enabling colleagues to put their learning into practice through a series of individual and group activities...trying out coaching conversation techniques.

The Moodle is open for self-enrolment (simply sign in as a member of Warwick staff) and can be found at: http://moodle.warwick.ac.uk/course/view.php?id=15759

Details on the 2-hour workshop can be found on the LDC Course Directory at: http://www2.warwick.ac.uk/services/ldc/development/

If you’re interested in getting involved in coaching or mentoring, the Moodle would be a good place to start. Please contact Lisa Lavender (LLavender@warwick.ac.uk - Learning & Development Adviser) with any queries.
