How do I borrow books?

You can borrow books from the Library using the self-issue machines on floor one.

Place your University card against the Smart-card reader.

Place your books spine down onto the cradle and push it to the back of the machine. Before removing your book, listen for the dull thud. Repeat this for any other books you want to take out of the Library.

Press the receipt button at the bottom of the screen and take the receipt. Your receipt is proof you have issued the books and is a good reminder of their due date.
