An International Perspective
Welcome to the University of Warwick

“What if you could study at a university that is globally connected? A place that champions independent thinking, as well as being founded first and foremost, on academic excellence. A campus university that creates a supportive cosmopolitan living environment, with endless opportunities for its 23,000 student population, originating from over 140 countries.

As a student at Warwick, you’ll be part of a dynamic community where knowledge is created, rather than simply described. Our academics are world-leading at their research and feed that into their teaching, creating a challenging yet inspiring learning environment. Our research strives to make a globally distinctive contribution to society, taking a multidisciplinary approach to tackling the toughest global challenges. We are also the only European university to be included in an international consortium to set up a new Center for Urban Science and Progress (CUSP) in New York. We’ve also just announced our intention to open a campus in Placer County, California.

We stand out from the traditional universities with our close links to business and industry. Companies use Warwick’s knowledge to develop their own strengths and ensure that they remain at the cutting edge within their industries. That cutting edge insight is developed out of world-class and internationally renowned research, with Warwick currently ranked 7th overall in the UK according to the latest Research Assessment Framework 2014. This is recognised within our reputation with employers, with Warwick ranked top 15th in the world in the QS World University Rankings 2014/15.

Perhaps you’ll want to choose a university that is getting ahead in a fast-moving world. Choosing a Russell Group University will give you the backing you need. Named The Times and Sunday Times University of the Year 2015, we are ever-present in the lists of the UK’s and the world’s great universities. A place that provides you with infinite possibilities. Choose Warwick.”

Jan Palmowski
Pro-Vice-Chancellor
Transnational Education
“Studying at Warwick has been a life-changing and humbling experience. The cosmopolitan atmosphere empowers you to believe that you can make a difference and have a good time while you are at it.”
What if your future starts here?
Undergraduate Study

What is important to you, as you decide where to study?
A university that provides a flexible learning environment, that will nurture your ambitions. Somewhere that knows the importance of innovation? At Warwick we know what is important, and we strive to provide this to our undergraduate community.

We know that you’ll want to join a community where your perspectives, knowledge, values and aspirations are built into our teaching and learning approach. We have a world-class reputation for research, so we attract teachers who are the very best in their fields. This means that you’ll be taught by those at the forefront of their subjects.

All of our undergraduate courses offer opportunities for research project work. You can also participate in cutting-edge research outside of your degree, adding an additional dimension to your degree. Want to study abroad, or add a language element? We encourage our students to consider their global outlook, and these are some of the few ways that you can do that. We have an alliance with Monash University in Australia, which helps us to meet the increasing student demand for producing graduates with a global education.

Don’t worry about making the move from high school to University. We understand what you need, and everything is in place to make things as smooth as possible. We have a dedicated International Orientation programme, meeting you at Heathrow Airport and bringing you to campus; a specific undergraduate skills programme, providing you with the skills you need for university level study; flexible study environments, so you can study in a place that you suits you best; almost 300 sports and student societies so that you can easily meet like minded friends.

Frequently asked questions
How do I apply?
All applications are made through a centralised application system, UCAS. Applicants can choose up to five individual degree courses, and more than one application can be at the same institution. The same application form is sent to each course that you apply for. Applications are considered on the information that is provided within. Occasionally, we may ask for additional information. We will contact you if this is necessary.

How should I write my personal statement?
When completing a personal statement, it is important to remember that the university is looking to see a well written statement, that demonstrates your interest in the subject you are applying to. It is important to refer to past achievements; any wider reading around your subject; what you are hoping to achieve through your studies and your future plans. If you are applying to a dual course, it is important to refer to the relationship between the two subjects.

What are the entry requirements?
Warwick is committed to giving full and fair consideration to all entry qualifications presented by applicants. The main entry requirements are listed within our undergraduate prospectus, or you can find the minimum entry requirements for your country at www.warwick.ac.uk/io

Is there a deadline for applications?
For all of our courses, we recommend that you apply before the UCAS deadline of January 15th. We cannot guarantee consideration for any applications received after this date. The UCAS website will provide you with further guidance, along with all deadlines. Please see www.ucas.com

Is there an English Language requirement?
All applicants are required to show that their ability to understand and express themselves in both written and spoken English is sufficiently high. Many applicants demonstrate this through their GCSE or International Baccalaureate achievements. Applicants whose English Language qualifications are not sufficient may be asked to provide an English Language qualification such as IELTS.

How will I be taught?
Depending on your subject, you may learn through any of the following: Lectures (the most formal way of teaching a large group of students); seminars (a group of around 12 students meeting with a member of staff to consider a pre-assigned topic); tutorials (meetings of individuals or small groups with a tutor); laboratory/language classes in specialist facilities; performance and independent study.

Further questions?
If you have further questions on apply to the University of Warwick, our website has helpful advice and information that you may find useful. It also details information on our Representative Offices and Regional Teams: www.warwick.ac.uk/io
What if you continued your journey?

Postgraduate Study

If you’re driven by intellectual curiosity, you’ll want to discover new ways of thinking. You’ll be looking for an institution which is research-rich, and nurtures your desire to ask questions and to challenge convention. At Warwick, you’ll join a university that is international in outlook and ambitions.

You’ll be part of a supportive cosmopolitan postgraduate community where academic and cultural diversity are celebrated. We provide you with the freedom, facilities and support to realise your full potential.

At Warwick, we’re committed to interdisciplinary in both teaching and research. Our Doctoral Training Centres offer a multidisciplinary approach to subjects in the sciences and social sciences and many of our taught master’s degrees have an interdisciplinary focus. We are increasingly developing joint programmes with overseas partners, such as our range of Double Masters degrees in Politics and International Studies.

All of our taught Master’s courses at Warwick are structured, developed and delivered by academic staff who are experts in their fields. They often draw on individual research experience so that you can be sure you are benefiting from the latest knowledge. All students can benefit from a dedicated skills programme, which cover academic, personal and career management skills.

The Postgraduate Hub at the heart of campus provides a dedicated community space for all postgraduate students, offering a variety of different opportunities to socialise or study. Through our Graduate School, you’ll find the latest information on scholarships, academic progression and study at postgraduate level.

Frequently asked questions

How do I apply?

All applications are made directly to the University of Warwick using our online application form. You can find this at www.warwick.ac.uk/pgapply. When submitting your application form, please ensure that you have all supporting document, along with the email addresses of two academic referees. Providing this information when applying will speed up the decision on your application.

If you are applying for PhD study, identifying a supervisor is key. Supervisors are there to help and support students, with emphasis on the structure of the research and development of transferable skills.
"The University of Warwick offers a variety of flexible and highly specialised postgraduate programs that provided rigorous academic training invaluable to prospective industry professionals and future academics alike."

All of our academic staff have a profile page on the departmental website where you can view their research interests. If you are unable to find a suitable supervisor by viewing the departmental website, you can write a summary statement of your research interests and forward this to the department, who will be able to forward to the most appropriate contact.

See the chart on page 8 for further guidance on the application process.

**Do I meet the entry requirements?**
The University of Warwick is committed to giving fair and full consideration to all entry qualifications presented by applicants. The main entry requirements are listed within the Postgraduate prospectus or you can view the minimum entry requirements from your country at [www.warwick.ac.uk/io](http://www.warwick.ac.uk/io).

**Is there a deadline to apply?**
The deadline to apply for a taught Master’s course is 31st July, although we do encourage you to apply as early as possible. Courses will close when full. Applications for PhD programmes can be considered at any time, although it is best to apply as early as possible, especially if you wish to be considered for funding.

**Is there an English Language requirement?**
Any applicants who are non-native English speakers will be required to provide an English Language proficiency test to study at Warwick.

This test result must be no more than two years old by the time of commencing your studies. If you have been taught in English within the last two years, then this may not be necessary. The Admissions Office will advise you further on receipt of your application.

Intensive English courses are available for applicants whose English Language ability doesn’t meet the minimum requirements, as well as pre-sessional and in-sessional English Language courses.

**Further questions?**
If you have further questions on apply to the University of Warwick, our website has helpful advice and information that you may find useful. It also details information on our Representative Offices and Regional Teams - [www.warwick.ac.uk/io](http://www.warwick.ac.uk/io).
How to apply to Warwick

8. Follow the link in your offer email.
9. Pay the deposit (WBS/CPS only) within the stated timescale.
10. Details of your conditions will be given in your offer email.

Documents required:
- Transcripts from your University-level study
- Research proposal (if appropriate)
- English language proficiency
- Two academic references (we only accept non-academic references if you have been out of education for more than five years)
Other opportunities to study

**Warwick International Foundation Programme**

Our Warwick International Foundation Programme is a pre-university course specifically designed to enable students, whose academic qualifications do not permit direct entry to the UK, to progress to studying in a UK university. With over 30 years of teaching experience and five flexible course options, the Warwick IFP is the right choice for success.

Studying on the Warwick IFP prepares students for admission to a high quality degree programme in two ways; it develops the subject knowledge required for degree study and instructs and teaches the required skills needed for degree study, such as critical thinking, note-taking, listening to academic tutors, individual study and research, and essay-writing.

Further information can be found on our website [www.warwick.ac.uk/ifp](http://www.warwick.ac.uk/ifp)

**Study Abroad**

Warwick is able to offer exchange opportunities with over 200 of the world’s leading universities in over 40 countries. Our alliance with Monash University in Australia is just one of these great opportunities. Our wide range of undergraduate degrees allows for flexibility with module choice, whilst taking full advantage of the wide range of extra-curricular activities available.

We have a dedicated Study Abroad Team to help whether you are planning on studying at Warwick, or wish to include a study abroad element to your Warwick degree. You can find their contact details, and full information on the Study Abroad opportunities at [www.warwick.ac.uk/studyabroad](http://www.warwick.ac.uk/studyabroad)

**Summer School**

Warwick’s exciting Summer School allows you to experience studying at the University of Warwick and the UK. All classes are taught entirely on the Warwick campus, with trips across to make the most of your time in the UK. The Summer School is taught by Academics passionate about their subject, and it allows you to indulge in your chosen subject and gain new knowledge, skills and attributes.

All applications are made directly to the University, and further information can be found online at [www.warwick.ac.uk/study/summerschool](http://www.warwick.ac.uk/study/summerschool)

“With nearly 30 years teaching experience and five flexible and specialised course options, the Warwick IFP is the right choice for success!”
English Language

Warwick's Centre for Applied Linguistics offers a range of English Language courses that are designed to improve your understanding and knowledge of the language. These courses will develop key skills for personal and academic English Language. The Centre for Applied Linguistics has a large Learning Resources Centre, where students can study and work in groups.

Programme in English for Postgraduate Studies
The PEPS programme at Warwick is accredited by the British Council. It is an ideal language improvement programme for graduates who wish to prepare for further academic study, either at Warwick or at another university, and who need to improve their academic English to a high standard. The programme will allow you to become an independent and confident user of English in an academic context. You will develop the skills to self-correct and self-audit your own writing and speaking, as well as listen and to read English with the accuracy and ease needed for intensive study. The course will also introduce you to relevant aspects of British life and culture, as prepares you for work in your subject field. For information on the programme and applications, please go to www.warwick.ac.uk/peps

Pre-sessional English Language
The Pre-Sessional Course is ideal if your first language is not English and you have an offer to study at Warwick. The course gives you the option of studying for either 10 or 6 weeks, and will give you the opportunity to develop your study skills in the English Language for academic purposes.

Throughout both of the phases, there will be opportunities to take part in social and cultural events. By the end of the course, you will be fully prepared to commence your studies at Warwick. Further information is available at www.warwick.ac.uk/presessional

In-sessional English Language
Throughout your studies at Warwick, there will be opportunities to develop and enhance your understanding of the English Language and develop key skills in writing academically. You can find out more about this and all courses offered by the Centre at www.warwick.ac.uk/cal

Learning English online
Through the Centre’s website, you can access a range of specified online lessons and training material, designed to increase your knowledge and understanding of the English language. With sections including Academic Listening/Speaking, Grammar, Academic Writing, Study Skills, this information will prove invaluable for all students whose first language is not English. Take a look at www.warwick.ac.uk/leap

Language Centre
If during your studies, you wish to learn a new language, for academic or personal reasons, the Language Centre is here to help. The Centre is fully equipped with the latest technology, an multi-media open access suite, satellite TV and computer based learning packages. See more at www.warwick.ac.uk/languagecentre
"I would encourage younger students to work hard so that they may have the opportunity to come to Warwick and experience some of the wonderful things I have enjoyed since my time here. I think all students should aim for Warwick so they can experience everything the UK has to offer."
“The lecturers are so talented they make the subject come alive. My academic experience so far has definitely changed the way that I think and challenged any preconceptions I had. I have learned so much already and I am only half way through my course. I look forward to what the future brings, and would encourage anyone thinking about Warwick to seriously consider it.”

Academic life

We’re committed to providing the very best learning resources that are modern, accessible and technology rich. There are dedicated services and provisions for students specifically designed to enhance their academic and social experience.

Outstanding facilities
We also recognise that no two people learn in the same way. That’s why we provide adaptable learning environments that cater for all learning styles. Our University Library, spread over five floors, offers over 1.2 million printed volumes, electronic books, journals and adaptable work spaces. Its an ideal base for any study, whether you prefer quiet individual study areas or spaces that encourage collaboration. For in-depth research into social, political and economic history, you can use our Modern Records Centre which holds an extensive range of nationally important primary sources.

Our Learning Grids across the campus offer flexible and innovative learning spaces, supporting individual and group study. Multi-media technology is present throughout, with opportunities for group problem-solving activities, team working and presentation development. Learning Grid’s can be found in University House, Gibbet Hill, Rootes Social Building, Senate House and off campus in Leamington Spa. We’re also investing £20m in a state-of-the-art teaching and learning building, allowing us to widen the worlds of our students through innovative teaching resource and social learning spaces. It will include premium lecture theatres, small-group teaching and seminar spaces, innovative social learning and network areas, and advanced technology.

Our postgraduate research students can benefit from the technology-rich open-plan Wolfson Research Exchange, which enhances opportunities for mutual support and knowledge exchange, as well as hosting study, collaboration and conferences.
Innovative learning

We’re a university a world-class reputation for research, so we attract teachers who are at the forefront in their respective fields. Our teaching staff are continually exploring new and exciting ways to communicate their own research and understanding, introducing you to fresh insights and approaches to learning. That’s why we have an Institute for Advanced Teaching Learning (IATL) focused on helping staff, and students realise ambitious teaching ideas.

Research excellence

Whether you join us as a postgraduate researcher, undertake a taught course, or take part in our many undergraduate research opportunities, we’ll encourage you to push the limits of your own academic curiosity. In the past 50 years, we have earned an enviable reputation for the wide-reaching impact of our research. We were ranked 7th overall among UK research universities in the UK Government’s 2014 Research Excellence Framework (REF), with 87% of our research rated either ‘internationally excellent’ or ‘world-leading’. This means that you’ll be learning alongside the world’s top academics at a university that continues to commit to the best research infrastructure and facilities.

Many leading UK and international companies invest heavily in Warwick’s research expertise – an investment that contributes to continual improvement in our learning and research facilities. Several of our departments maintain active links with policymakers, industry and cultural partners. Our international industry partners include GlaxoSmithKline, Jaguar Land Rover, Brucker, Siemens, Intel, NASA and Tata Motors to name but a few.

Recent investments in our research infrastructure and facilities have created:

- Our interdisciplinary science building, a state-of-the-art joint research building for Physics and Chemistry which focuses on analytical and material science research.
- The £3.7million Nuclear Magnetic Resonance (NMR) Centre, where academics undertake solid-state research using NMR spectroscopy that is unrivalled in the UK.
- A new cancer research unit in which mathematicians, physicists and engineers will work collaboratively using digital technology to explore potential new treatments for the disease.
- Our new National Automotive Innovation Centre (NAIC) project, designed to provide a critical mass of research capability by combining automotive expertise nationally and internationally, which is due to be completed in 2017.
Living on campus brings people from all over the world together in one community and allows you to adapt to your new way of life in a stimulating and friendly environment. Warwick has one of the largest and widest ranges of campus accommodation in the UK, with something to suit everyone’s needs and budget. You can live in flats or halls of residence; have en suite or shared bathroom facilities. A limited amount of same-sex accommodation is also available.

All campus bedrooms are furnished to a high standard and have access to free WiFi and/or high speed network access. A hard-working team of domestic assistants ensure all campus accommodation is clean and comfortable. Our resident tutors are on hand to facilitate harmonious living and provide pastoral care. All rooms have access to a kitchen and living area. Launderette facilities can be found centrally on campus and in some residences.

Off campus
If you prefer to live off-campus, the University manages around 2,000 rooms in nearby Coventry, Kenilworth and Leamington Spa. All properties are accredited to ensure they meet high standards of health, safety and maintenance and that rents are suitable for your budget. All properties are located within 5 minutes walk of transport links. All properties will have access to kitchens and living areas and will be furnished.

You can read more about the local areas of Coventry, Kenilworth and Leamington Spa on page 24.

You can find further information on the on campus accommodation, including 360 degree views from the residences, on the Warwick Accommodation website: www.warwick.ac.uk/accommodation
“Warwick has the whole package as a University – it is a self-contained campus with top facilities from a theatre to banks, shops and cinemas. It makes student life very convenient.”

The alcohol free lounge and bistro-style restaurant offer quieter ways of relaxing on your own or with friends. The Students’ Union also supports over 230 societies. Joining a society is one of the best ways of meeting new and like-minded people when you first arrive at Warwick. If you get involved in the running of a society, you’ll gain training in skills and knowledge that will be invaluable after you leave university, and highly sought by employers. A list of the Society groups, with a sample of the societies within can be found on page 16. The Union is run by students for students, with elected sabbatical officers and an elected Union Council. If you want to get involved at this level, there are lots of opportunities for you to do so. The Students’ Union also represents students within University meetings, from staff-student liaison right through to the University’s key decision-making body, the Senate.

Warwick Arts Centre
The largest arts centre outside of London, Warwick Arts Centre is one of the most exciting cultural venues in the country. With two theatres, a newly refurbished concert hall, cinema, art gallery, as well as bars, restaurants and a book shop, the Arts Centre provides a wide range of events for students and the local community to enjoy. Over 1,500 events are held each year, including theatre, film, music, classical music, comedy, dance, visual arts, family and spoken word. 

Health Centre
The campus based Health Centre provides the highest quality health care to patients living on campus and in the local area. The website provides helpful advice and guidance, with links to other NHS services. More information is available at www.uwhc.org.uk. A pharmacy is located on campus within the Students’ Union building.

Eating on campus
Although Warwick does not offer any meal plans and all residences are self catered, there is the option of using the ‘Eating at Warwick’ card, which provides a discount on food or drink purchased in on-campus outlets. Further information can be found at www.warwick.ac.uk/eating.

Cafés and restaurants
Across campus, there are ten cafés, four restaurants, three bars, two pubs and a baguette bar. All offer a relaxed and friendly environment for all students. A range of special offers are available throughout the year, with Halal and/or vegetarian options available across all outlets.

Shops
The Warwick campus has all of the provisions for every day living. As well as the many restaurants and eating outlets, there are two banks, a bookshop, travel agent, post office, supermarket, hairdressers, pharmacy and on-campus recruitment agency.

Local area
10 minutes walk from most areas of campus, you will find a large shopping centre, with a supermarket which is open 24 hours a day (apart from Sunday). You will also find a frozen food store, hardware/general store, Asian food store, pharmacy, post office, travel agents, hairdressers and a café, amongst others.

Students’ Union
Most universities in the UK have a Students’ Union which is the heart and soul of the student social scene. Warwick is no exception. Warwick Students’ Union is one of the biggest and best in the country with bars, food and drink outlets, dance venues and an Advice and Welfare Office.

The Union has a seven day a week entertainment programme and a wide mixture of events so that there is something for everyone to enjoy. Famous guests and bands visit the Union throughout the year.
Music Centre
If you're interested in taking up or continuing a musical instrument, Warwick's Music Centre offers plenty of opportunities to develop your musical talents. Over 500 students belong to at least one of Warwick's many ensembles, which include the Symphony and Chamber Orchestras, 250-voice Chorus, Rock Gospel Choir, Brass Band, and Big Bang. We also have an annual Battle of the Bands, hosted by the Students' Union.

Student drama
There's a great tradition of student drama at Warwick. You can act, direct or produce; try your hand at stand up comedy or cabaret; work backstage or write a play. All of the facilities and expertise of the Arts Centre are close at hand.

Warwick Student Societies

Academic
Here you can find societies for the majority of courses within the University, along with societies for Postgraduates and mature students: BioSoc, Classics, Economics Summit, Financial Forum, India Forum, International Relations, Medieval, TEDx Warwick.

Activities and games
From chess to capoeira, de-stress to debating, take your pick: Craft, FIFA, Game of Thrones, Harry Potter, Juggling, Matchday, Quiz Society, Table Football Society, Taoist Qigong Society.

Campaigning
Whatever you're passionate about, campaigning societies can help you get your message out there and make a real impact: Amnesty, Mind Aware, Oxfam Outreach, People & Planet, Warwick Against Hunger, Warwick Pugwash, Warwick STAR.

Cultural
Whether you're an international student, fell in love with a particular country while travelling, or simply like discovering new cultures, there are plenty of cultural societies to choose from: African & Caribbean, Balkan, Chinese, Cypriot, Indian, Kazakh, Latin American, Thai.

Film and media
Whether you like watching films or producing them, there's something for you: Anime & Manga, PhotoSoc, RaW, The Boar, The Writing Society, Warwick Student Cinema, Warwick TV.

Food and drink
The name says it all! Opportunities range from growing and selling fresh organic produce to serving beer at the annual Real Ale Festival: Allotment Society, Cheese and Chocolate, Cocktail Club, Good Food Society, Real Ale, Wine and Whisky Appreciation.

Halls
If you live on or off campus or joining your halls, the halls society is a great way to meet new people, get involved in socials and sports tournaments, and really boost the sense of community around campus: Bluebell, Claycroft, Lakeside, Rootes, Tocil, Whitefields.

Music and performance
Whether you're into music, dance or drama, Warwick SU's performance societies make a massive impact across campus and in the local community: Big Band, Break Dancing, Comedy, Hip Hop, Music Theatre Warwick, Salsa Dancing, Shakespeare, Warwick Bass.

Religious and belief societies
Whether you're a devout believer, an atheist, or just curious, religious societies have plenty to offer: Buddhist, CathSoc, Christian Focus, Christian Union, Hindu, Islamic, Krishna Consciousness Society, Sikh, Warwick Atheists, Secularists and Humanists.

Welfare, charity and action
If you want to make a difference to students or the wider world, this is the place for you: Engineers Without Borders, Jailbreak, Nightline, RAG, Warwick Enable, Warwick Volunteers.

“I'm very impressed with the amount of activities that I can be involved with – there is so much to do at Warwick because the campus is so vast and the Students’ Union is so active...”
Warwick Sport

Warwick Sport is a partnership between the Students’ Union and the University, which offers a huge variety of sporting opportunities. We have 65 Sports Clubs catering for all abilities, where everyone is welcome.

Warwick has some of the best sports facilities of any university in the UK, along with a team of professional coaches and instructors, who are on hand to help whatever your previous experience and ability. Whether you are an elite athlete or a beginner, you’ll be able to take part and advance in any sport.

Throughout the year, there is an extensive portfolio of exercise and fitness classes, as well as courses and personal training programmes for you to join. These include Yoga, Pilates, Badminton, Squash, Swimming, Golf and Boot Camp.

**Sports provision**

With three main sites on campus, the sport facilities are all situated within easy walking distance of halls of residence. The Cryfield Sports Pavilion has over 60 acres of playing fields, including cricket, football, lacrosse and rugby pitches.

The Westwood area of campus is designed as a mini sports village and has a three court sports hall, three artificial pitches, an 400m all-weather athletics track, and an indoor tennis centre plus floodlit outdoor court.

The Main sports centre is situated in the centre of campus, and has a 25 metre, six-lane swimming pool plus sauna, five squash courts, the Bear Rock Indoor Climbing Centre and specialist ‘Bouldering room’, the Running Bear Fitness Suite and performance weight training area, two four-court sports halls, an aerobics studio and physiotherapy clinic.

“The Warwick campus is very supportive and has certainly helped bring out the best of me within my studies. The department has excellent facilities, and I make the most of the Library and in particular the Learning Grid.”
“At PwC we’ve recruited a number of students from Warwick. These students come from a wide variety of degree backgrounds and demonstrate the key skills and attributes that PwC look for.”
Coming to Warwick means that you’ll be highly employable when you graduate. We are 15th in the world for our reputation with employers, with employers wanting the firm foundations that Warwick degrees are built on.

**Employability**

Not only do our degree courses provide you with the subject knowledge, but they also develop your key skills in independent and critical thinking, presentation and communication, research, leadership and organisation. Collaboration between our departments and employers also ensures our curricula are relevant to today’s and tomorrow’s workplace.

**Careers support**
All of our undergraduate degrees offer either the opportunity to apply your learning in a workplace or industry setting as part of your degree, or the option to apply for a voluntary year out for work experience (subject to approval).

We advertise thousands of work experience vacancies on our online database for Warwick students and graduates. These include placements and internships. The Centre for Careers and Skills provides a wide range of skills programmes for undergraduate, postgraduate and research students. This includes workshops, advice and academic coaching.

Warwick has a dedicated careers web page for international students which includes international job vacancies, listings of international careers fairs and events, as well a wide range of country-specific resources and links.

Over 300 leading employers visit campus each year to meet our students and the value of a Warwick education is reflected in the high quality of job roles that employers offer to our graduates. We were ranked as third most targeted university nationally by the UK’s top 100 graduate employers. At 78%, we also have one of the highest percentages of graduates entering either professional or managerial jobs, or graduate-level study, of any UK institution (all figures taken from *The Times* and *Sunday Times* Good University Guide 2015).

Employers actively look for graduates who have been members of student clubs and societies. With nearly 300 student-run clubs and societies, Warwick offers many opportunities to meet a broad mix of people and build your confidence.

**Alumni**
With over 175,000 alumni in over 190 countries, the Warwick Alumni network is an invaluable tool that will help you to gain advice, make contact with people working in the same field or in the same country. There is also information on internships and events on their website [www.warwick.ac.uk/alumni](http://www.warwick.ac.uk/alumni).

**Student led events**
Throughout the year on campus, you will be able to participate in a wide range of events which are student organised and led. The highlight of these is One World Week, which is the largest student-run festival, and arguably one of the most inclusive. OWW is a celebration of culture, diversity and internationalism, with the opportunity to be involved in the organisation and participation of these can be an impressive asset to your CV. Other events include the Warwick Student Art Festival, TEDx, Warwick Economics Summit, and Warwick International Development Summit. You can find out more on the Students’ Union website [www.warwicksu.com](http://www.warwicksu.com).

**Volunteering**
Volunteering on campus and in community projects can be a beneficial and memorable achievement to add to your Warwick experience. You will gain new skills, enhance your personal development, make new friends and meet new and interesting people. Projects will vary in commitment, time and expertise. You can find out more at [www.warwick.ac.uk/volunteers](http://www.warwick.ac.uk/volunteers).
A superb location

One of the things that attracts many students to the University of Warwick is our campus and the surrounding areas. With fantastic social and sporting facilities, great access to major towns and cities and excellent outdoor space, students are rarely short of things to do.

Coventry
A beautiful cosmopolitan city with a modern ambience but historical charisma that provides Coventry with the charm that has attracted visitors for a thousand years. Located only three miles from campus, and easily accessible with good transport links, Coventry is home to shops, cafés, restaurants, cinema complex, sports centre, ice rink, theatre, museums, art galleries, as well as parks and open spaces. Coventry’s most famous resident, Lady Godiva, can also be seen, alongside the infamous Peeping Tom, in the Broadgate area of the city centre.

Being a historic city, there is a vast amount of attractions that you can visit, such as Coventry Cathedral and Cathedral Ruins and St Mary’s Guildhall. There is also the world-class Coventry Transport Museum, as well as the Herbert Art Gallery and Museum. Closer to campus, you can find fantastic open spaces, such as the War Memorial Park.

Times by train from Coventry to:
- Birmingham – 20 minutes
- Manchester – 2 hours
- Oxford – 50 minutes
- London – 1 hour
- Exeter – 3 hours
- Edinburgh – 4.5 hours

Kenilworth
An idyllic town whose history began with the building of the castle in the 12th century. Kenilworth today is an enchanting town with shops, cafés and restaurants, while one of the UK’s greatest castle ruins provides a perfect place to attend an event or visit for the day. At Abbey Fields you can spend an afternoon relaxing by the lake, or use the sporting facilities.

Royal Leamington Spa
A beautiful regency town with independent shops as well as high street chains, cafés, restaurants, cinema, sports centre and the Pump Rooms. There are also open spaces such as Jephson Gardens for you to enjoy a cream tea or a walk around the gardens.

Warwick
The small town of Warwick is picturesque and steeped in history. Best known for its castle, Warwick is easily accessible from the campus and a great destination for a historical day out.

Stratford-upon-Avon
Known worldwide for its connections with William Shakespeare, Stratford-upon-Avon is only 16 miles from Warwick’s campus and is a perfect destination for a literature inspired day.

Birmingham
The UK’s second city, Birmingham is a vibrant and cosmopolitan city located approximately 20 minutes by train from Coventry. A major shopping haven, Birmingham is home to the Bull Ring Shopping Centre, as well as cinemas, theatres, tourist attractions, parks, open spaces and much more.

Further afield, you will find the cities of Manchester, London and Edinburgh. All are well known for their cultural attractions, shopping centres and historical importance. These places and much more are easily accessible from the campus by public transport. Each term the International Office offers a range of trips to different tourist attractions and important cities in the UK; ensuring that you make the most of your time in the UK.

Europe
With direct train journeys from Coventry to London taking less than 60 minutes, and Birmingham International Airport only 15 minutes, major European cities are easily accessible from the Warwick campus. Whether you are visiting for a conference, study abroad opportunity or on vacation, you are only a couple of hours from all that Europe has to offer.

Transportation
Getting to and from the campus is very convenient, with regular public transport services. The local buses offer a frequent and convenient way of travelling from Coventry City Centre, Kenilworth and Leamington Spa to and from the campus. The local Railway Stations in Coventry and Leamington Spa provide opportunities to travel easily to different areas of the local area and the UK generally.
"The campus is really beautiful, and I love how close to nature you really feel. You can see the change in seasons happening across the campus."

Warwick

Stratford-upon-Avon
International Office and contacts

The International Office provides a personal contact at the University of Warwick who will be able to help you through the application process, arrival at the University and throughout your time at Warwick. Information on the range of services available can be found below, or please do not hesitate to contact your Regional Team for help or advice.

Coming to visit
You are welcome to visit the campus whilst you are deciding where to study or before you begin your studies. The best way to visit the campus is through the weekly campus tours on Wednesday afternoons. Current students show you around the highlights of the university and answer any questions that you may have about studying at the University or life on campus. You can find further information on how to book your place on the tour at www.warwick.ac.uk/study

Immigration advice
The Immigration Service within the International Office provides free, confidential advice and assistance to international students before and during their studies. Information and advice on the latest Immigration guidance can be found on their website www.warwick.ac.uk/immigration

Live chats
Each week, representatives from the International Office will be available to answer questions about studying at the University of Warwick. There will also be dedicated departmental and information chats, such as Immigration or Orientation. Find out more at www.warwick.ac.uk/livechat

Orientation
An exciting and interactive residential programme is held each year in the week leading up to the start of term. The four day programme is packed full of activities, trips, social events and information sessions to welcome students and help them adjust to living and studying in the UK. More information is available at www.warwick.ac.uk/orientation

In-country events
During the year, Representatives from the University of Warwick will attend fairs, visit schools and universities, and hold receptions for offer holders. For details on the events held in your country, please see www.warwick.ac.uk/io

“Orientation week at the University was awesome! There were people from all over the world and we had the University to ourselves. There were events on campus and people there to explain things to you and to prepare you for life in the UK.”
The International Office has a dedicated team, both in the UK and globally, who are able to provide you with assistance and support throughout your application to Warwick and throughout your studies. Make contact with us on +44 (0)24 7652 3706 or email your regional team at the addresses below.
