Higher education study or train abroad grant rates: 2015-2016, now confirmed for 2016-2017

The Erasmus+ UK National Agency, a partnership between the British Council and Ecorys UK, is pleased to announce that 50 million euro in Erasmus+ grants will be available for 2015-2016 and 2016/2017 to support UK higher education staff teaching and training and students who want to study or train in Europe.

The UK National Agency has set the Erasmus+ study and train abroad grant rate for students taking account of what is expected to be a high level of demand from institutions (mainly universities) and students to study or train/work abroad.

The grant is a contribution to the costs of studying or training/working abroad, to help as many students as possible to take part in the scheme and receive Erasmus+ funding, and to make the best use of the funding available from the European Commission.

The monthly grant, for study and training/working abroad, is 100 euro more than the minimum figure allowed by the European Commission.
