

Dear All

Philosophy and Mathematics in the Work of Bernard Bolzano

15 - 18 April 2010, Prague

This note contains further details for the abstracts and papers for this meeting. And there is information on a Forum for the meeting.

You are receiving this message because your name appears on the 'Invited Participants' list linked to the webpage following and you have not definitely told me you will not be attending.

http://www2.warwick.ac.uk/fac/sci/dcs/people/steve_russ/pmb10/

(NB there is a hidden underscore character between the words 'steve' and 'russ' in that URL.)

If you would like to give a paper at the meeting, please send an abstract of no more than 500 words to me by email if possible in any standard format by Monday 4th January 2010. We shall be asking for full papers to be received by Monday 15th March 2010 so they can be distributed to participants in good time to be read ahead of the meeting.

There is now a Forum (shared discussion list) available for recipients of this mail. It is at the following URL:

<http://forums.warwick.ac.uk/wf/browse/pass.jsp>

[This sentence of the original has been deleted. If you need details of the Forum for access, i.e. number and password, you are welcome, but please email me requesting them again. Please do not let this put you off!]

Some have mailed me saying they need more time to decide on attendance. That's fine. If you have never mailed me since invitation, that's also fine, but I shall drop you from further mailings after 30th November unless I hear from you requesting otherwise.

Best wishes
Steve
