

Use of Ruby Spectrometer and Laser (normally stored in Room 127).

To use this equipment in normal mode you must:

- Complete the University Safety Office Laser Training Courses
- Register with the University Safety Office as a Laser User
- Read and understand the Risk Assessment and Systems of Work
- Receive practical training from Matthew Coak or Paul Goddard
- Be authorized to do so by Paul Goddard

Do not open the interlocked enclosure. Only Matthew Coak and Paul Goddard are permitted to realign the components inside the enclosure as specified in the System of Work.
